Ms. Jane Williams
Gay 90's Support Group
3724 E. La Salle #1101
Colorado Springs, CO 80909-2605

Dear Ms. Williams:

Per your request, enclosed are 5 copies of the Community Prescription Service brochure. When you need more, please contact us, and we will fulfill your request right away.

Community Prescription Service is designed to save your patients money and provide them with timely, front-line AIDS information. As you well know, for people with AIDS, information is critical.

Thank you for agreeing to provide these brochures to your patients.

Sincerely yours,

Stephen Gendin

Stephen Gendin, CPS Vice President

P.S. Community Prescription Service can provide any FDA approved medication and any insured person can enroll. Please have your office staff or patients call us at 1-800-677-4323. They'll begin saving money -- and receiving the free quartely information packets -- immediately.

COMMUNITY PRESCRIPTION SERVICE

AIDS INFORMATION PACKET #2

June 1, 1992

Community Prescription Service's information packets are provided free of charge to all active CPS customers and to our National Advisory Committee members. CPS does not recommend or endorse any therapy or treatment described within these materials, and we suggest that all new treatments should be conducted under a physician's care. Because we believe that information is key to survival, CPS encourages the distribution of these materials to any interested persons; however, it should be noted that CPS does not hold the copyrights to anything contained within this packet.
